1951 Wheat Price Support Posted

Price support set Monday of 1951 wheat by the Agriculture Department was at the highest possible level—90 per cent of parity, but no less than \$1.99 a bushel.

Price was same as for the 1950 crop, the report stated.

The report also stated that in order to put wheat on the same basis as other grains, no payments will be made to producers for storing it on their farms. In recent years the CCC has paid farmers seven cents a bushel to store wheat on which it has granted loans.

Only the farmers who keep within acreage allotments limits can get price supports, the report continued.

For 1951, 72,800,000 acres of wheat is to be planted, the department stated. If yields are average this would mean 1,150,000,000 bushels. This year's crop is estimated at 996,000,000 bushels.

The price support will be increased if parity for wheat next July 1 figures higher than \$1.99 a bushel floor.

Same grades of wheat as in the past will be eligible for loan or purchase.

Cardinals Appear In Two Final Games

The Hamlin Cardinals had the victory skein which they had been weaving interrupted in a Sunday afternoon game at Dickens.

Noland proved tight in the clutches for Dickens and pitched his club to a 4-1 victory over the Cardinals.

While his mates were garnering only three hits from the offerings of Noland, Billy Joe Wilson was also stingy on the hill for the Cardinals, allowing only seven bingles.

Brad Rowland, Jr. spiked the plate for the only Hamlin run when he parked one over the palings in the sixth inning.

It is the intention of the management of the local club to end the season for 1950 with two games here this week. Dickens will be here for the Friday night game which is scheduled for 8:15 p. m. at the City Park.

Sunday afternoon will bring the Slaton club to Hamlin once more and in the ranks of this club is the redoubtable Tuffy McCoy, a brother of Hamlin's Runt McCoy. Tuffy is noted for his harangues on the diamond and fans from Hamlin delight in retaliating as the heat of battle rages.

Paul Bryan Says Production Full On Nation's Lumber

According to Paul Bryan, local member of the National Retail Lumber Dealers Association, the defense production program now underway will not require any such drastic curtailment of home building and other civilian construction as was put into effect during World War II.

"Although supply of steel, copper, lumber and other strategic materials used in housing and other buildings will be lower than in the last few years, because of the allocation program, there should be enough of all materials to permit a considerable amount of private construction, including repair and modernization work, unless defense production is stepped beyond the levels now being contemplated in Washington," he said.

"Recent information indicates that the partial war mobilization program now underway will require construction of relatively few large war plants and far fewer barracks and war housing developments than were put up during World War II."

"The government is endeavoring to hold down construction of homes and other new buildings through the tightening of mortgage credit terms but, as of now, there is every intention that a fairly large volume of new civilian building will continue."

Girls comprising the choral body were Kathryn Ritchie, Jerilyn Irwin, Margot Patterson, Arlene Durkee, Vera Tidwell, Barbara Posey, Eleanor Hutchinson, Adelle Altum, Faith Simpson, Roberta Wilkins and Willie Upshaw. Juanice Young accompanied the girls in their initial number.

Pipers Shaping Up In Stiff Training

Hamlin High School's Pied Pipers have placed eight days behind them in preparation for the gridiron wars to come and laymen observers of the progress made are encouraged by what they have seen.

Coaches Jess Burditt and Vernon Townsend gave the local fans a preview of the season to come when they arranged a practice scrimmage with the high school team from Monday on Wednesday afternoon.

Principal result of the scrimmage was that Hamlin definitely had the Munday aggregation out-manned and little was learned of how the Pipers will fare against opposition of stronger calibre. In some respects the locals looked sharp and there were other departments in which they showed woeful weaknesses.

Burditt was far from satisfied with the manner in which his boys executed blocking assignments and backfield candidates were slow at picking the holes that were opened for them in the downfield area.

Bad news started for the club when it developed that Charles Binnicker, letterman center from last year's squad would be lost because of an ailing back that will prohibit him from engaging in the sport for this campaign.

Shaping up in pre-season practice are the following as apparent starters for the Pipers:

Asa Goodgame and Robert Fletcher, ends; Herbert Hopper and Ronald Armstrong, tackles; W. T. Stapler and Jerry Carr, guards; Frank Albert Tucker, center.

Donald Rowland, quarterback; Don Gregory and Donald Green, halfbacks and Billy Sutherland in the fullback slot.

Goodgame, Stapler and Green have been chosen as tri-captains of the squad this year.

The entire first string as listed above are lettermen and others who earned their letter are in the first line of reserves. These are Garland Fletcher, Don Elmore, and David Ford. Others prominent in the coaches plans for the season are Loyce Hargrove, John Edgar Rowland, Guy Weaver and Troyce Hargrove.

Supplementing this array of experienced men are the following who are making the first string hustle to retain their place in the sun.

Clark Hewitt, Kevon Rodgers, Dwain Rodgers, Donald Armstrong, Billy Barnett, Bill Pool, Don Crowley.

Franklin Willis, Donald Strain, Lee Mayberry, Kenneth Barnett, Don Kelley, Jim Harwell Marvin Johnson, Robert Angel.

Milton Butler, Joe Don Hymer, Jimmy Ray, Robert Bonner, Jas. Mayberry, Jon Adams, Glenn Tidwell, Glenn Smith, Jimmy Holmes, Charles Durkee and Donnie Holmway.

The squad will contest Winters in another pre-season scrimmage at Abilene Saturday and will play a return engagement with Munday on next Wednesday.

Henderson informed Fletcher that he will have additional bales within a few days for the local gin to handle.

Efforts are being made to institute an annual premium arrangement for the grower of the first bale of the year.

"The people have a choice between two candidates for lieutenant governor," Brooks said. "One, Pierce Brooks, is a business man without any political obligations or alliances; the other is a professional office holder who is being supported by a group of power thirsty and money hungry individuals and corporations."

The Dallas insurance man will bring his campaign to a close Friday night at Tyler with a statewide radio broadcast over the Texas Quality Network.

IT'S TIME for BROOKS! Because...

Something must be done now about the runaway cost of our state government—a cost which has increased more than 500 percent in the period between 1935 and 1950. Aside from the cost of World War II, the cost of the Federal government did not increase that much during the same period.

With the State plunging wildly towards a financial crisis, the Lt. Governorship is a business rather than a political office. It needs a business man with a business viewpoint.

Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on this runaway cost, useless waste, and needless extravagance in our State government.

Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed.

The next Lt. Governor of Texas should be above any internal friction, beyond all cross currents of politics, and completely judicial when clashes of personalities arise among members of the Senate. He must be in a position to treat them all alike, to be fair to each, and also to be true to his obligations to the people. Pierce Brooks meets these tests.

Pierce Brooks is the only candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men stay in office too long.

The Lt. Governor to be elected in 1950 should not come from the confused atmosphere of the State government, but direct from the people with a program for the people. Pierce Brooks is such a man.

In these crucial times the next Lieutenant Governor should be answerable to the people of the State and not to any group of special interests that has made millions of dollars off the taxpayers.

Pierce Brooks for Lt. Governor

(Pol. Adv.—Pd. for by Ben H. Lewis and other friends of Pierce Brooks)

Brooks Confident Of Election Victory

Pierce Brooks, Dallas insurance executive, took his aggressive campaign for lieutenant governor in East Texas this week and told supporters that he was supremely confident of winning the Democratic nomination for lieutenant governor on August 26th.

Brooks said he was greatly encouraged by the tremendous number of pledges of support he had received in East Texas. "The groundswell for Pierce Brooks which started out in West Texas has swept into East Texas," he said. "The people are thoroughly aware of the vital issues in this campaign and the smear campaign launched by supporters of the other candidate has been met with cold resentment."

The Dallas county candidate pointed out the lieutenant governor's office is a business office and that the state's financial affairs, now at their lowest ebb in history, can best be solved by a business man.

"The political experience that has brought the state to the brink of its worst financial crisis in history," Brooks said, "is not the type of experience to get the state out of the present financial mess."

Brooks called upon all Texans

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B₁, B₂, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming executive member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do a job during the war—he now wants to help his fellow citizens who (like he was once), are physically run-down and weak due to lack of Vitamins B₁, B₂, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's witnessed statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition.

"In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality—'get up and go.' I had real cause to worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL—he asked me to try at least five bottles. I'm on my fourth bottle and already I feel like my old self. I look forward to a day's work and go home—play with the children—work in the yard—fish until midnight! Thanks again to HADACOL, energy and vitality once again course through every fiber of my body. You bet, I too, am now a missionary for this great new HADACOL."

Get That Wonderful HADACOL Feeling Everyone Is Talking About

HADACOL gives such wonderful results because it not only supplies deficient, weak run-down systems with more than their daily needs of important

Vitamins B₁, B₂, Iron, and Niacin—but also helpful amounts of precious Calcium, Phosphorus and Manganese—elements so vital to help maintain good health and physical fitness.

If you are a victim of neuritis pains, certain stomach and nervous disturbances, constipation, insomnia or a weak, run-down condition due to such deficiencies, HADACOL will start you on the road to feeling better often within a few days. Thousands upon thousands of records of grateful men, women and children prove this to be so.

Many Doctors Recommend It. HADACOL is recommended by many doctors not only to their patients but to members of their own families who have such deficiencies. Before giving up hope—you owe it to yourself to at least give HADACOL a chance to help you. Why keep dragging yourself around feeling "half-alive" when it's so easy to have that wonderful HADACOL feeling that everyone is talking about! Trial-size bottle, only \$1.25. Large family or hospital size, \$3.50. Refuse substitutes.

BIBLE COMMENT

Christ's Servants, Like Soldiers, Must Practice Endurance

It is not only the soldiers serving in Korea that are being offered, in the words of Winston Churchill, "blood, sweat and tears"; vast numbers of our fellow-Christians across the world are also suffering cruel persecutions.

They have been enduring hardness and manifesting courage as truly and manfully as those who have been bearing arms. And endurance is the great, ultimate mark of the true and effective soldier. The long process of training is to make him hard and strong and firm of muscle and spirit, as well as efficient.

Paul himself exhorted Timothy to "endure hardness" as a good soldier of Jesus Christ. Paul knew from experience that a Christian could not live in the hostile environment of that ancient pagan world without suffering.

In offering his counsel to the runaway slave, Timothy, Paul felt the terms of warfare and soldiering aptly defined the nature of Christian life. It was his contention that the earthly soldier serves under imperfect commanders. He may be called upon to obey orders that are mistaken, and he may even know they are mistaken—"Into the valley of death rode the six hundred."

But the decisions of the Divine Commander are always wise, couched in careful planning and delivered with compassionate consideration of man's weaknesses and limitations.

The rule of Christ is from within. It is not a law from without. Christ leads; he does not compel. And we cannot be good soldiers without enduring the petty trials and tribulations of workaday life and meeting major disappointments and heartaches in soldierly fashion.

That is why Paul urged Timothy to be strong and firm.

Tests for the polowog card included skills which enabled them to jump into water, level off, and

swim 15 yards, turn about and swim back to the starting point. Dive into deep water, swim 15 yards, turn around, turn over on the back and rest in floating position for one-fourth minute; then turn again and swim back to the starting position.

Laura Courtney passed the Intermediate or Frog swimmer test. Among many of the tests for this rank is the ability to dive and to do a five minute swim.

The report concluded by stating that cards had been mailed the girls.

"Here are some basic facts about the electric power industry!"

✓ The business-managed electric power and light companies are the second largest taxpayers in the nation. Last year the West Texas Utilities paid \$2,238,634.00 in taxes—an amount equal to the total electric bill for all residential and farm customers for seven months!

✓ Despite all the "whoop-de-doo" over hydroelectric energy, if all the available water power resources in the United States could be completely developed, this would produce only one-fifth of the total energy the nation will need by 1960. In order to insure ample electric power for West Texas, the West Texas Utilities Company began in 1947 a program to more than double its generating capacity!

✓ Since World War II, the business-managed utilities have invested nearly \$2,000,000,000.00 a year in new plants and equipment to serve the people. This is the largest construction program undertaken by any single industry. The West Texas Utilities is now in the midst of a \$20,000,000.00 program expanding facilities to serve West Texas!

✓ Electric service is the one item in the family budget that costs substantially less than in pre-war days. Since 1939—while the cost of living as a whole has risen nearly 70 per cent—the average cost of a kilowatt hour of electric service for West Texas household use has dropped 18 per cent!

New Hamper Whisks Away Wash

Its Wheels Eliminate Drudgery

ONE of the most back-breaking tasks on laundry day is, for many women, that of dragging heavy laundry from one room to another.

If you're tired of struggling to get your soiled clothes from the bathroom to a larger room for sorting, or of carting them from the hamper out to where your washing machine awaits the Monday wash, here's good news for you.

With these difficulties in mind, makers of a well-known clothes hamper line have recently created a new model which should eliminate a part of your wash-day problems.

The new hamper features ball-bearing wheels, which have been substituted for the usual rear legs. This makes it possible to roll the hamper about the house with ease. It also doubles as a laundry cart if you do your washing at a laundrette.

The hamper is propelled by a handle bar which snaps down out of sight when not in use. Wheels are also inconspicuous when the hamper is backed against a wall.

A newly-developed hamper-on-wheels makes it easy for this young house-maker to transfer her soiled clothes from bedroom to washing machine on laundry day.

A Statement

In the course of the current political campaign for the office of Commissioner of Precinct 1 in Jones County, my administration as your Commissioner from 1943 through 1946 has been criticized by a candidate.

Statements made by him charge me with a deficit of \$4,600.00 in the treasurer's fund. In consideration of the fact that over \$15,000.00 worth of road maintenance equipment was purchased during that administration, I do not feel that this is an excessive load for the commissioner to have carried.

In the four years that the commissioner has been in office a terracing campaign has been the source of great revenue to his precinct and sufficient income should have accrued to place the precinct in a solvent condition.

In addition to the income from terracing, much of the equipment inherited by him has been sold with only scanty replacement. This should have netted further money to his fund.

It is the procedure of the county to be furnished with quarterly auditor's reports of the condition of the various precincts. It is suggested that the voters seeking the truth examine these reports at the county court house.

This is not a plea for any particular candidate in the forthcoming run-off campaign. I simply feel that my conduct of the office was on a business-like basis and do not feel that I should be involved in the statements made during the campaign. Go to the polls and vote your convictions.

Respectfully,
RALPH RIDDLE

ATTEND REUNION.

Mr. and Mrs. I. D. Acklin, Wesley, Bill, Vickie and Ricky of Hamlin attended the family reunion of descendants of Mr. and Mrs. G. W. Watts at Lake Sweetwater, August 12-13. They are grandchildren.

The country boys' campaign to "scratch Dallas" in the August 26 run-off is sweeping the state, Chairman Emmett Alexander of Marble Falls said today.

The Marble Falls businessman who announced plans last week for the revolt against Dallas County's control of state government, said he had received hundreds of letters, telegrams and phone calls in support of his plan.

The plans calls on Texans to vote against the four -Dallas County candidates in the five statewide races, to elect their four opponents and to thereby strengthen representation of other areas in the government.

"The reaction to our drive to decentralize the power held by Dallas County in state government has been more than satisfactory," Alexander said. "And we expect it to snowball into victory by Saturday."

"We are not running any one man. We have picked the opponents of the four Dallas candidates because we do not want Dallas to boss the entire state and because we think the out-of-Dallas candidates are equally as well qualified for the different state offices."

Alexander said Texans in all parts of the state, especially in the small towns, were working for the "scratch Dallas" idea.

The Dallas County candidates and their opponents are Pierce Brooks of Dallas and Ben Ramsey of San Augustine County, for Lieutenant Governor; Will Wilson of Dallas County and Fagan Dickson of Bexar County, for Supreme Court, Place 1; George W. Harwood of Dallas County and Meade F. Griffin of Hale County, for Supreme Court, Place 3; and Robert L. Lattimore of Dallas County and W. A. Morrison of Milam County, for Court of Criminal Appeals.

Alexander said an eight-member committee, including Mayor R. O. Smith of Marble Falls and M. C. Winters, Johnson City rancher and merchant, vice-chairmen, were pushing the "scratch Dallas" campaign.

With the possible exception of Herbert Hoover, George Washington was the United States' wealthiest president.
